Selected performances are professionally signed by Auslan interpreters.

Trained Audio Describers provide a commentary with concise descriptions of actions, expressions and gestures to complement the theatre experience for patrons who are blind or have low vision. Description is relayed via a discreet headset using radio frequency.

Tactile tours offer blind and low-vision patrons the chance to touch and examine props and costumes and hear the cast and crew describe the visual aspects of the production. This tour will take place after the Saturday, 1 August 2026 matinee at 10:50am and run for 20 minutes. Please meet in the Cremorne Theatre Foyer by door 2.

For all accessible performances at QPAC scan here
